Radial Design Turkey

3rd · Art

A fall art project about radial symmetry, pattern and warm colors

Name _____ Date _____

Art Words

Radial symmetry: a design that repeats around a center point, like the spokes of a wheel or the petals of a flower.
Pattern: lines, shapes or colors that repeat in order.
Warm colors: red, orange and yellow. They feel cozy, like a fire or fall leaves.

You Will Need

The template page · pencil · markers, crayons or colored pencils · black fine-tip marker (optional) · scissors and glue (optional)

Steps

1. Look at the feathers. Each one has 3 rings: inside, middle and outside.
2. Choose ONE pattern for the inside ring (dots, stripes, zigzags, scallops or swirls). Draw it in every feather, all the way around.
3. Choose a new pattern for the middle ring and repeat it in every feather. Then do the outside ring.
4. Color each ring with warm colors. Keep each ring the same all the way around: that repeating is what makes it radial!
5. Color the turkey body. Outline your patterns in black marker to make them pop.

Artist Reflection

Which pattern was your favorite? Where else do you see radial symmetry in nature or at home? (Hint: look at a pie, an orange slice or a sunflower!)
